

Ensure **ADDITIONAL LAB SAFETY** during **SARS-Cov-2 inactivation** with Heratherm APS incubator **Auto-Decontamination Function**

140 °C push button decontamination

Building on our established CO₂ incubator decontamination technology, introducing the first microbiological incubators with an independently certified 140 °C decontamination routine.

140 °C decontamination

- At 140 °C contaminating microorganisms are reduced to a minimum, comparable to sterilization, within a six hour cycle
- No need for separate autoclaving of interior fittings
- Certified by an accredited microbiological institute

Superior sample protection

- Automatic over-and under temperature alarm

Intelligent design for improved results

- Lockable incubator door for restricted access
- Audible alarm if the door is left open accidentally
