STATEMENT

To Whom It May Concerned,

We, Genobio Pharmaceutical Co., Ltd., (Briefed as Genobio) as legal manufacturer of Virusee® SARS-CoV-2 Antigen Rapid Test (Colloidal Gold) (Briefed as VSLFA), would like to declare that the new mutant strains **Omicron variant (B.1.1.529)** can be effectively detected by VSLFA. The evidence is as follows:

1. According to bioinformatics analysis, the new mutant strains Omicron variant (B.1.1.529) can be effectively detected by VSLFA, and the laboratory verification test for its detection other performance is still in progress.
2. Genobio have expressed the N protein of Omicron (B.1.1.529), which was the same as the detection limit of ordinary new crown N protein after experimental testing.

Genobio will continue to perform other testing performance verification.
